

## Summary of Technical Changes

Section	Synopsis	References
430.72(C)(1)	Revised section title and added references to 724.30 through 724.52 and Part II of Article 725.	FR-8015, SR-7574
430.75, 430.81, 430.82, 430.83	Revised to incorporate “motor” with “controller.”	FR-8032, FR-8033, FR-8034
430.83(F)	Added section to provide requirements for the motor controller short-circuit rating.	FR-8034
430.84, 430.85, 430.87, 430.90	Revised to incorporate “motor” with “controller.”	FR-8024, FR-8028
430.97(C)	Revised to reference section 312.6.	FR-8036, SR-7536
430.101	Revised to incorporate “motor” with “controller.”	FR-8037
430.102	Revised to incorporate “motor” with “controller” and remove “warning” from “warning label.”	FR-8037
430.103, 430.109	Revised to incorporate “motor” with “controller.”	FR-8037, FR-8043
430.110	Revised to incorporate “motor” with “controller,” replaced “ampere” with “current,” added a reference to 430.110(C)(1) through (C)(3), and added an exception to 430.110(C)(1) addressing design letter A motors.	FR-8039, SR-7538
430.111	Revised to incorporate “motor” with “controller” and to add “-operable” to “power.”	FR-8039
430.113	Revised to add requirement to provide a sign to shut off and also identify the circuits for multiple sources of power.	FR-8040
430.120	Revised to reference requirements for power conversion equipment used in adjustable-speed drive systems.	FR-8122, SR-7544
430.122(A) and (B)	Relocated Informational Note No. 2 formerly in 430.133(A) to 430.133(B).	FR-8124
430.122(C)	Deleted first sentence for clarity.	FR-8126
430.130(A)	Revised to incorporate “motor” with “controller.”	FR-8127
430.201	Renumbered Part XI sections and revised to incorporate “motor” with “controller.”	FR-8129
430.204	Added section with requirements for wire-bending space in motor controller enclosures.	FR-8044
430.205	Revised to reference requirements for power conversion equipment used in adjustable-speed drive systems.	FR-8045, SR-7555
430.206	Revised to reference requirements for adjustable-speed drive systems.	FR-8046
430.208	Revised to reference requirements for power conversion equipment used in adjustable-speed drive systems, added voltage and current rating requirements, changed the requirement from 115 percent to 100 percent, and replaced “an ampere” with “a current.”	FR-8047, SR-7565, SR-7569
430.232, 430.233	Revised to incorporate “motor” with “controller.”	FR-8048
430.241	Revised to incorporate “motor” with “controller” and to replace “prevent a voltage above” with “limit voltage to.”	FR-8049, SR-7570
430.243, 430.244, 430.245	Revised to incorporate “motor” with “controller.”	FR-8050
430, Part XIV	Revised Table 430.249 and Table 430.250 to include 2300 to 2400 volt system voltage ranges.	SR-7559
440.3	Deleted section.	SR-7600
440.8	Revised section to add restrictions on mounting mini-split air conditioning units within bathtub and shower spaces.	FR-8130
440.11	Revised section to add requirements to protect unqualified persons.	FR-8063, SR-7604
440.14	Revised section to reference 110.26(A) for working space requirements and deleted Informational Note No. 2.	FR-8078
440.22(A)	Revised language for clarity and added two exceptions.	FR-8081, SR-7605
440, Part IV	Revised to remove “Branch” from Part IV title.	FR-8091
440.31	Revised section to reference Part III of Article 310.	FR-8082
